

Hawker Tray

The Hawker Tray , which has been part of our product variety due to the fact 2007, is the nicepromoting vendor tray from Rocketpacks, we've got therefore added a barely large model which also can accommodate gastronorm (gn) components for instance .

The thermoformed abs plastic tray is deep-drawn in one piece, so there aren't any seams or beading, and so on., where dirt can collect, e.G. While promoting equipped-poured drinks or unfastened snacks.

Cleansing and hygiene: clearly wipe clean, then dry – this is all there may be to it!

On this respect, the hawker tray has most important benefits over fabric vendor trays, for instance, which fast grow to be obvious in practice.

Wearing may be very tiring in your employees and might have an effect on their reaction to the product. It is why all seller tray products are equipped with a padded, breathable lower back segment which distributes the weight flippantly and avoids any constriction. The carrying top and strap widths are constantly adjustable.
